

SAMPLE CLINICAL TEACHER REPORT FORM

Learner _____ Date _____

Preceptor _____ Course/Module _____

Site _____

The following format is to be used to evaluate learner progress at set intervals (telephone contact, clinical faculty meetings, etc.).

A. *Follows Each Step of Management or Clinical Decision Making Process*

1. Collects complete data in timely manner
2. Makes correct decisions based on data collected
3. Recognizes emergency need for action (priority setting)
4. Assumes appropriate role in setting (learner, consultant, etc.)
5. Designs comprehensive plan with alternatives
6. Implements plan safely and efficiently
7. Evaluates effects of interventions appropriately

B. *Clinical Skills Development*

1. Hand skills: appropriate timing, accurate results, minimal discomfort to patient
2. Communication skills: clear, concise, complete, and accurate oral presentations to preceptor/consultant: appropriate client teaching and instructions given; legible, complete and concise written records
3. Theory base appropriate to level of learner

C. *Professional Behaviors*

1. Accountable – responsible, dependable, and practices in accord with standards and policies; able to accurately evaluate own performance
2. Commitment to philosophy of care of APN or midwifery discipline (patient autonomy, competence, family centered care)
3. Demonstrates initiative and self-direction – accepts constructive criticisms, new ideas and concepts, leadership potential

D. *Overall Performance Relative to Expectations (Outcomes)*

E. *Summary of Strengths and Needs*
